

**Award-winning
pay platform**

**Fully supported by Liaison
payroll experts and
service centre**

**For both NHS
organisations and workers**

Award-winning payroll service, created for the NHS

mii Pay is our weekly payroll and pensions administration service, with comprehensive helpdesk and service support functions to ensure robust, accurate and timely payments are made to workers, supporting staff retention and financial wellbeing with our daily pay facility.

Our platform delivers tangible benefits for the NHS and its workforce. From worker contracting and compliance, timesheet authorisation, to weekly payroll and disbursements in a simple process. Our payroll service is seamlessly integrated into our mii Flexible Workforce platform, yet can also feed off any other workforce management system, giving clients operational flexibility.

The mii platform supports trust finance processes and agency invoicing arrangements, delivering rate management and control, and influencing demand management through authorisation requirements throughout the booking process.

Full support of our payroll experts and a service centre

We processed 215,000 time sheets last year, ensuring staff are paid correctly and on time. Our services include monthly, weekly and bank payrolls and payslip distribution, gross-to-net administration, payroll reconciliation, and payroll admin support through our UK-based service centre.

Our dedicated pensions team was responsible for administering £10.5 million in pension contributions last year, and provides specialist knowledge to help employee queries.

Paying employees weekly is proven to improve morale and reduces absenteeism. The introduction of weekly payroll also offers flexibility, makes recruiting and retaining staff easier to achieve, and reduces overall bank and agency costs.

An award-winning platform

The Rewards 2017 & 2018
Specialist Payroll Provider
of The Year

The Rewards 2019
Best Business Award
(Over 100 staff)

The Rewards are the industry's leading independent payroll awards. For three years, we have been recognised for our mii Pay platform, with Rewards 2019 judges stating:

Liaison Group's submission was very impressive, showing outstanding annual cost savings of £100m. The entry clearly demonstrates an innovative approach through implementation of RPA development which is being used by 2,000 medical staff to manage their placements."
